PollTag™

Election Asset Management System

- Designed specifically for Elections
- Ready to integrate with your VR
- Chain of Custody Reporting
- Seal tracking and logging
- Configurable Rules
- Efficient Scanning
- Election Asset Planning
- FOIA Support

About PollTag™

PollTag is an Elections specific Inventory planning, management and tracking tool. PollTag tracks Election Assets within Elections Warehouses, Polling Sites, and during transit. PollTag generates Chain of Custody records for serial-numbered Election Assets such as voting machines and Vote Storage Media.

PollTag simplifies Election Setup by
synchronizing with Voter Registration
/ Election Management Systems.
